

C2S-41

4MP Fixed-Lens Multi-Sensor 2-Head Dome Camera

Coram's 4MP multi-sensor 2-head camera lets you monitor two separate angles simultaneously with one device, each with 4MP resolution. It's great for covering areas like building entrances, corridors, or corners where you'd normally need two cameras. With built-in infrared, it captures clear footage even at night. It's a smart, space-saving, easy-install option for anyone who wants reliable, multi-angle coverage.
